Sorrrows

YouTube channel called "The Dictionary of Obscure Sorrows" by Jon

Obscure Sorrows is a compendium of invented words written by John

John aims to fill a hole in the language—to give a name to emotions

we all might experience but don't yet have a word for. This is a web series for newly invented

words for strongly intense emotions which have not been named yet. Each sorrow is tagged,

tagged and transcribed, then released gently back into the subconscious. All the words are made

up though they all are based on existing roots and are not nonsensical.

This concept recognizes such beautiful and powerful emotions, emotions

some point in our life. Each original definition aims to fill a hole in the language. The

mission is to capture the aches, demons, joys and urges that reveal the core

psychological issues.

I wish it wasn't so ineffable to describe how beautifully haunting these words

experience certain waves of sentiments and the very fact that we can't name them helps us

expressing them or turning a blind eye to them. Heads up, these words might make you go

through another existential crisis or might just help you get over one. Some of these words don't

just fill a hole in the language, they fill a hole which you have been avoiding to come in terms

with.

This is certainly one of the most beautiful things I have come across on YouTube. You can also

Here are a few of my favorite words:

1. **Reader**

is the realization that each random passerby is living a life as vivid and complex as your own.

You are the main character—the protagonist—the star at the center of your own unfolding

story. You're surrounded by your supporting cast: friends and family hanging in your immediate

orbit. Scattered a little farther out, a network of acquaintances who drift in and out of contact

over the years.

But there in the background, faint and out of focus, are the extras: The random passerby. Each

living a life as vivid and complex as your own. They carry on obliviously around you, bearing the

accumulated weight of their own ambitions, friends, routines, mistakes, worries, triumphs and

unlabeled cruelties. When your life moves on to the next scene, these flickers in place, wrapped

in a cloud of backstory and inside jokes and characters strung together with countless other

stories you'll never be able to see. That you'll never know exists.
